Message from the President...

Thank you for taking the time to read and enjoy this issue of PAW Print.

So much has transpired in recent months ... I don't know where to begin. Let me start by comparing the world of animal rescue to a rollercoaster ride. Each and every day brings ups and downs and it's not always easy to stay positive and focused. Thankfully, the good carries us through and the animals are so deserving of our assistance that we simply can not quit. Our Volunteers have been working tirelessly for over 35 years to make a difference. We have worked, without remuneration and while making personal sacrifices, to see to it that the innocent beings who cry out are heard and helped.

I would like to extend a personal invitation to each reader of this publication to attend our 35th Anniversary Celebration on Friday, November 9th. Kindly refer to the enclosure herein for complete information. Although the hours noted are from 7:00 to 10:00 p.m. – we welcome you to simply stop in, at your convenience, to enjoy the entertainment, place a bid at our silent auction, share some delicious finger foods and to raise a glass in our honor. Your attendance alone will help us to help those who can not help themselves. Please let us know today if you plan to attend and if you can offer an item or two suitable for our silent auction. If you are unable to attend, please consider making a contribution.

We are pleased to announce the creation of the new PAWS satellite office/shelter in Huntsville, Ontario (managed by Marilyn Goodman and myself) as well as our satellite office in Thornbury, Ontario (managed by Teresia Rowatt). Why the changes you might ask? We have simply felt the necessity to expand in order to assist more animals throughout our Province. There are a staggering number of animals in need and we are doing our utmost to help as many as possible with our current resources.

PAWS continues to operate out of Toronto and we would like to introduce you to Lloyd Thistle, our Director of Business Development who oversees operations at our Head Office. We would also like to thank and acknowledge our entire Volunteer/Fundraising Team who are busy finalizing the details of our event in

November. A special thank you must also go out to the hard-working Volunteers who assisted with our move and who worked diligently in the Summer heat. It was a grueling move with 5 – 26 foot truck loads brought from Toronto to the tranquil north ... but the animals are enjoying it here and they are no longer living in fear of bending the rules (i.e. by-laws restricting the # of animals in a foster home). As well, they are as content as can be in their new enclosure where they watch the birds and chipmunks and more recently the beautiful gold and burgundy leaves falling from the many trees surrounding our 4.5 acre property. A special thanks to Marilyn who helped to make all of this possible ... our dream come true ... our new sanctuary.

“Henry would like to invite you to attend our corn roast in the Fall of 2008 – at our cozy new sanctuary in Huntsville”
– stay tuned for details ...

Please give generously in response to this plea. The animals thank you.

The need is GREAT – the time is NOW.

Dear **PAWS** Supporters

Here are some of the animals that
YOU have recently saved!

I NEED A FOREVER HOME!

(Some of our recent rescues)

NOTE:

If we included all of our recent rescues, the entire issue of PAW Print would be bursting at the seams. Please refer to www.pawstoronto.org to view pictures and descriptions of the special pets we have available for adoption to loving, responsible homes (you may also view our Happy Tails section for success stories) and we suggest that you check in from time to time as this information changes regularly.

CHLOE

Our beautiful little tabby who is featured on the front page of PAW Print would be so thrilled to find a new family to love her – please contact us today if you're interested.

BEAUTY AND HER BABES – TIPPY, PIPPY & MOOKIE

Beauty (a part siamese with gorgeous but sad blue eyes) was found at an automobile scrap yard about 25 minutes west of our new shelter in Huntsville. She had had litter upon litter of kittens over the years and was pregnant again! Before our Volunteers were able to bring her into our care, she gave birth and the employees at the wreckers yard had no idea where the babies were – only

kittens where they were born

Tippy

that her routine had changed. Thankfully, the gentleman made an effort to find Tippy, Pippy and Mookie (they had been born in the back of an old van) and they are now safely in our care in Huntsville. They are also growing faster than you can imagine and their Mom is the best Mom we've ever seen! She's wonderful and due to be spayed very soon – can you

help? Would you like to assist with the cost of her veterinary care or that of the kittens? Would you consider adopting her or one of her little ones? Donations are accepted online at www.pawstoronto.org or by mail (see coupon on the rear of this publication) or contact Marisa today if you or someone you know would like to adopt ... marisa@pawstoronto.org or 1-705-788-3161/416-520-7995 (even though these cats are in Huntsville – our Volunteers commute to and from Toronto on a weekly basis – delivering them safely to their new home would be our pleasure!).

Mom and babies, safe and sound

Unfortunately, space in PAW Print does not permit us to include all of the animals we have up for adoption (there are over 150 at any given time!) but we invite you to refer to <http://www.pawstoronto.org/adoption.html> and link to either PetFinder or 1-800-save-a-pet to view the animals in our care for adoption (this information is updated regularly).

I FOUND A FOREVER HOME!

(Some of our recent adoptions)

WE'VE BEEN ADOPTED! THANKS TO LINDA, SECORDS AND PAWS!!!

We are THRILLED to report that MANY of our wonderful residents have found extra-special homes in recent months. That being said, we absolutely WILL acknowledge those adoptions (see next issue of PAW Print) but felt it was important to tell you about one in particular. Her name is Sophie. She is a stunningly beautiful female with long soft fur and who has a very sensitive and loving nature. Sophie was born with a neurological disorder which meant simply that she would occasionally have an 'episode' where she would fall over. Sometimes this

meant she would have a bowel movement. This can certainly be a little scary for her human caregiver(s) at first but once we got to know her – we realized that Sophie dealt with her situation very well.

We have a secret to share with everyone who wants to listen ... did you know that the so-called 'special needs' animals who are rescued by PAWS and other organizations are actually just that – they are SPECIAL and they bring just as much joy (if not more!) to the kind and selfless people who adopt them and who can see past their perceived imperfections. THANKS TO DEBORAH AND TERRY WHO ADOPTED SOPHIE this past Summer and to Marilyn who found Sophie this phenomenal, forever home!!!

SOPHIE

April 16, 2007

I'm writing this letter to express gratitude to PAWS for recently taking in my adult special needs cat, Sophie.

I learned about PAWS as I desperately researched places to re-home my cat of many years. There were very limited options available for people in my situation. Most places, like city shelters, were no longer taking any cats. Most shelters do not have a no-kill policy. Still, other smaller shelters were not supportive of my difficult decision to re-home my cat.

I considered myself an informed and sensitive pet owner faced with a difficult decision. For health and personal reasons, the decision to find Sophie a new home seemed inevitable. However, I could not have imagined how difficult it would be to do so. Besides the idea of parting with my cat, what I found most difficult was people's lack of compassion for my situation--even though I communicated my situation explaining that this decision was not easy, was not a situation I could have predicted and that I wanted the best for my cat. Although I fully understand animal welfare workers' perspectives and respect the challenging work they do, I did not expect the often rude reaction I received from those working on behalf of animals.

When I first spoke to Kim at PAWS it was refreshing to hear from a compassionate person. It was clear that Kim works on behalf of animals and that she puts their needs first, but she spoke to me with respect and gave me a chance to prove to her that I was not just giving away my cat without reason, thought and planning. She gave me advice, and offered to post Sophie on the PAWS website. After that point I felt Kim was committed to me and to Sophie. That sort of commitment felt miraculous.

PAWS is a special organization that truly does not reject people or pets--but offers their time, advice and, when deemed appropriate as it was in my situation, their space to animals in need. It is a place where animals will be loved and taken care of. Personally I learned how important and necessary organizations like PAWS are to both people and animals--to a healthy society! Furthermore, PAWS is a place where responsible people who have to re-home their pets can turn to without feeling like heartless people. I know that if I had to re-home my cat who I adore, then there must be others in similar situations without many choices.

Unfortunately, there are not many places like PAWS. Therefore, I know that PAWS deserves the best resources possible to continue the special work they do for animals in all sorts of situations. For example, it is my hope that a more expansive facility can be developed to house the animals. PAWS definitely has the heart and skill in its leadership to do what is best for these animals. Kim is a visionary who is humane to both the people and animals she comes into contact with--I will not forget her kindness and generosity. I know if given the chance with greater resources she would do the best job possible to further PAWS' commitment to animals as she already does so know with limited resources.

In my experience, PAWS is a role-model organization working to improve society, and the people at PAWS deserve the appropriate recognition and support to continue their efforts on behalf of animals.

Thank you.

Sincerely,

Tina M., Toronto, ON

THANKS PAWS!

Thank you for taking the time to read this issue of PAW Print. Please feel free to pass it along to a fellow animal lover for their reading enjoyment. We always welcome new members! By spreading the word about **PAWS** (a strictly NO-KILL organization managed exclusively by volunteers) you are helping those who cannot help themselves.

FUNDRAISING IDEAS!

There is an extensive list of ways to donate to PAWS if you refer to our web site at www.pawstoronto.org – and click ‘donate’. No internet access? Don’t fret – you can simply send your donation today or call our Volunteers for suggestions as to how you can get involved in an upcoming event at 416-520-7995. Some PAWS supporters send contributions in memory of a fondly remembered pet or person, some in honor of a special occasion. Some businesses will match their employees donations and you can allocate your United Way contribution to PAWS (why not encourage others to do so?!).

Do you have e-mail access?

If you do, please send us a message at info@pawstoronto.org asking to be added to our e-mail list as we occasionally send updates via e-mail. You may also provide this information on the coupon accompanying your donation and this information will be inputted by one of our Volunteers! If you don’t have e-mail – rest assured – you will continue to receive our quarterly issue of PAW Print by mail.

Shadow – our shelter mascot and Kim our President taking a short break from the hectic world of animal rescue – this picture was taken only a few minutes away from our Huntsville Satellite Office/Shelter (September 2007). We encourage everyone to visit in the coming months or perhaps next Spring or Summer when the weather is nice and you can really enjoy the beauty of Muskoka – not to mention coming to visit The Gang and to do some volunteering. Shadow is in her 15th year and adored by all. Sadly, she is losing weight (once 120 pounds – now down to 60 – due to age only according to our Veterinarians) and her hind-end is beginning to fail. If you or anyone you know is handy and might be able to assist with a renovation that would see to it that Shadow no longer has to tackle the 4 stairs in and out of the office, we would be forever grateful. Contact Kim TODAY 416-520-7995/1-705-788-3161.

By now you have learned the exciting news about our new Satellite Office and Shelter in Huntsville, Ontario. Each day brings new challenges in our new rural setting and we need your help to make this work. How can I help you might ask and what does PAWS need?

As always, **donations of a monetary sort are crucial**. Without funding we would be unable to care for the animals – it’s just that simple. If you have or have had a ‘pet’, you know how much it costs to provide the necessary veterinary care (this is expensive even without emergencies or life-threatening situations – imagine trying to budget for over 150 animals – who have limited or unknown history not to mention the daily expense of pet food, kitty litter, paper towel and cleaning supplies (we prefer to use Orange aPEEL cleaner which is purchased at some Pet Valu stores ... see <http://www.orangeapeel.com> for more information) which is safe for the animals in our care.

Do you know anyone in the Muskoka/Huntsville area? Perhaps they would consider **Volunteering**? Our Volunteers are an integral part of what we do – without them – there would be no PAWS. We are in need of reliable/trustworthy people who adore animals (cats in particular) and who want to get involved. It’s important that these people drive as we require assistance with transporting our ‘little people’ to the vet we now deal with in the Port Carling area – Port Carling Veterinary Services (special thanks Dr. White who has been providing wonderful care to our four-legged friends!!).

Handyperson needed! Yes, there are always bits and bites that need doing and we need someone who is handy to help – could this be you?

Advertising/Promotion/Marketing/Communications – PAWS (Toronto/Huntsville and Thornbury offices) require(s) an experienced individual to assist. Our current Volunteers are very busy with the animals and we need someone to focus on promoting our good work – please contact us TODAY if you can help (or if you know of someone who can).

*We could never thank everyone who supports **PAWS** in one issue of PAW Print ... but please know that your donations do not go un-noticed. We appreciate each and every contribution and we guarantee that every dollar is used to help the animals we rescue. **THANK YOU ONE AND ALL!***

REMEMBERING 'TIGER'

*A rescue to remember and further proof that **PAWS NEVER GIVES UP!***

It was just after 3:00 a.m. when I received the call. It was Tuesday, July 17, 2007. It was Cathy. She was calling about Tiger. He had thrown another clot. I had received similar calls (normally late at night) several times over the last few years, but this was clearly different. I could hear Tiger's painful cries in the background. 'I'll be right over' I said and hung up the phone – my stomach in knots.

Many of you know Cathy and The Campbell Family. They have very kindly provided storage for the PAWS Garage Sales over the years and they are very devoted PAWS Members and Volunteers. As with many of our Volunteers, they learned of PAWS through adopting from us. They adopted a wonderful cat named Tiger who we miss dearly.

A LOVING MONUMENT IN MEMORY OF TIGER CAMPBELL AS TOLD BY HIS BEST FRIEND AND CONFIDANT. – NICOLE CAMPBELL

Perched on the arm of our Dad's recliner, watching each morsel of food go from the bowl into his mouth, is the strongest visual we will always have of Tiger.

The Campbell's suffered a devastating loss after 16 years, our cat Snowball passed of stomach cancer.

The void was unexplainable.

Although it had not been discussed it was a shared realization that Pumpkin (Snowball's companion) would need another. It was too much for him to bare on his own. He quickly withdrew from the family not understanding why Snowball was taken away and why he was not coming back.

Pet Valu as it happens, had an answer. While shopping for Pumpkin's food we came across a PAWS flyer. It spoke to the organization and the work they were doing to give rescues a second chance. We took Kim's number for future reference, but as they always say the future is now.

Upon contacting Kim we found an empathic ear and loving spirit. Someone who really cared about the work she was doing and the cats she was rescuing. Rarely have I seen or met someone with such passion and dedication. We were immediately interested in learning more. When Kim and her mom came to meet our family we shared a delightful afternoon of coffee, tears and promise of happier times ahead.

Kim invited us into the shelter to meet all of the rescues. This is when a fate named Tiger drooled his way into our lives. As we were standing in the hallway, Tiger bestowed us with his presence. My brother was leaning against a shelf when Tiger stretched his great body up to Jeffery's ear and started licking with affection. It was that moment that we knew Tiger was meant for our family.

When Tiger arrived with Kim the next day, the carrier door opened and out he flew! Not in panic, or fear, nor to hide, but to plop his great bottom onto the middle of our living room rug. He looked up with eyes that just said "this is home."

Tiger had a 'grade four' heart mummer, we knew this taking him in, but you would have never known to watch him. He flew around our house with the energy of a kitten. He had such a personality and an addictive zest for life. Pumpkin began to be more affectionate, truly, he learned how to love from Tiger.

Tiger also had a passion for fine cuisine. If anyone was in the kitchen Tiger would be right there, underfoot, waiting with those great big watery eyes for someone to share the wealth. You never ate alone when Tiger was around. He sat beside or in front of whoever was eating. It was like eating with an audience.

Besides food, Tiger picked up on emotion. If ever there was sadness, hurt, laughter or joy you could trust him to be there.

One of the most beautiful things about Tiger was his gentleness. Never have I known a cat to be so kind and trusting. Never have I known a cat to radiate life the way he did.

Tiger passed on July 17, 2007 at 3:30 AM. He suffered 5 strokes in his life time but with each one he always fought back. He always came out stronger. All but one he conquered. All but one he couldn't survive. With no pulse in his back legs and his weak heart barley beating our life, we let him go to a better place.

Tiger's life is one to remember and celebrate. Thank you PAWS and a special thanks to Kimberly and her amazing Mom who gave the Campbell's a blessing of a lifetime.

After Care

One of the realities of life is that through an untimely tragedy or by natural aging, a beloved pet may well survive us. Pets are members of our family and we need to think about their care and protection when we can no longer provide it. Don't overlook your pet(s) when making your estate plans. If there is someone whom you think may agree to take your pet(s), talk it over with them NOW. If they have reservations, now is the time to find out.

Should you wish to have your pet(s) taken in by a responsible, no-kill shelter such as PAWS, you can indicate whether you wish for them to live out the rest of their natural lives at the shelter, or have the shelter find them a new, carefully selected, loving home. Here is a sample provision you can insert in your will to protect your pet(s).

"If at the time of my death I own a pet or pets, I direct my Executor to deliver them as soon as possible to PAWS (Peoples Animal Welfare Society), (a) to be cared for there until a suitable permanent home is arranged OR (b) to be cared for at their shelter for the rest of their natural lives. I further direct that a bequest of \$_____ be paid to PAWS (Peoples Animal Welfare Society) in consideration of their good work."

You should discuss such provisions with your lawyer, amend them as need be and then update your will without delay. If you do not have a lawyer, please consider contacting either of the two lawyers we recommend below. Both are animal lovers who are professional and experienced.
